SWAGGER 2 ELECTRIC SCOOTER DESCRIPTION

From trips to the park or neighborhood adventures, the Swagger 2 is the way to move. The Swagger 2 folding electric scooter uses a powerful motor to boost you through miles of trips and additional features that make traveling a breeze.

Folding design and solid rubber tires mean you can launch your trip with no worries. Solid tires mean no flats! Built-in suspension helps smooth out bumpy rides. Take a break and pop out the kickstand while you review your travel data. Out late? The Swagger 2's bright LED light not only makes your path visible but helps pedestrians and other night riders see you.

While weighing in at just over 22 pounds, this e-scooter's rugged alloy frame easily supports riders up to 200 pounds. When it's time to hop off, use the Swagger 2's heavy-duty locking mechanism to fold and secure the scooter until your next adventure.

Each Swagger 2 is backed with SWAGTRON's gold standard support which includes a 1-year warranty and US-based customer service you can contact any day of the week.

These features and more make the Swagger 2 e-scooter the best way to keep moving. Live life on the go.
